Yeah, that's really well done and a huge contribution to the ABB! HUGE THANKS for that!

Ans I watched your Replay a the "4Fun"-Event @ Dijon-Prenois in the Procar BMW M1 and you really SHOCKED me: how on earth can you write chat-messages while driving on P3??? Amazing!

It's happend in Lap 7, when you reminded Maze to watch into his mirrors after he took Zoth out of the Race...
