I can see where they got their idea of the Beetle.

Aw: Oldest surviving Porsche

Geschrieben von DerOlf - 15.05.2019 23:05

obvious ... F. Porsche was the designer of the original "Volkswagen".

Sometimes you can tell by the design, what designer is behind it ... if its an egg, its a colani ;)

If its a bug, its a porsche ;)

Looks a bit strange, but its a beautiful car for that time .. imo.
