Hello, I would like to know if GTL is still running, I am downloading the mods and the tracks from the AutoUpdater. Once downloaded everything and open the ports. How to access the server? Thank you
Sorru for no presentation.

Aw: Consulting.

Posted by Taffy - 2019/05/27 09:58

Hi samrfactor,

welcome aboard. GTL is still running as you can see via the regular races here at the Altbierbude.

To get things going just follow carefully the instructions found here: <http://wiki.bierbuden.de/GTLInstallation>

Important: In order to have fun on our Servers, please use a clean installation of GTL with no other addons installed.

If the need arises you can join via Teamspeak to sort things out.

I hope that was helpful.

Cheers,

Jens

Hi Jens, thank you very much! I follow your instructions. I do not really speak much in English, but there is a person who speaks Spanish in the league to help me. Keep in touch.

byagm Gracias desde Argentina! Ayer compre este simulador. Era el que me faltaba de SimBin. Sigo esperando a que termine de bajar. Mientras tanto, sigo bajando.

Ayuda para entrar a las carreras

Posted by lapelotanodobra1 - 2020/04/13 00:37

Hola:

Me presento. Mi nombre es Luis. Estoy bajando el autoupdater y estoy tratando de que termine de bajar toda (conexion mala calidad + cuarentena = terrible). Yo compre en steam el GTL, y luego lo instale separadao para updatearlo con el patch 10 aniversario. Luego supe de este portal, y cuando termine de updatear el juego quiero saber como unirme a una sesiÃ³n. Necesito instrucciones para correr online.

Como se dice en mi pais, instrucciones apt (a prueba de tontos):P

Te agradezco por anticipado

Luis
Argentina

Aw: Ayuda para entrar a las carreras

Hola Luis y bienvenido a nuestra casa. Ya que nuestros conductores espaÃ±oles aparentemente no leyeron esto, probarÃ© con un manual, que va al traductor despuÃ©s.
AsÃ­ que, despuÃ©s de la instalaciÃ³n de GTL mueves o copias el directorio completo en otro lugar, por ejemplo en C:/. Entonces descarga e instala el parche de GTL 1.1 aquÃ­.
http://www.altbierbude.de/component/option,com_remository/Itemid,26/func,fileinfo/id,796/lang,de/
DespuÃ©s necesitas nuestro Autoactualizador, que puedes encontrar aquÃ­ -->
http://www.altbierbude.de/component/option,com_remository/Itemid,26/func,fileinfo/id,650/lang,de/

Durante la instalaciÃ³n, seleccione sÃ³lo ABB y Python, Â¡deseleccione todo lo demÃ¡s! Una descripciÃ³n mÃ¡s detallada del actualizador sÃ³lo estÃ¡ disponible en alemÃ¡n e inglÃ©s, la descripciÃ³n en inglÃ©s se puede encontrar aquÃ­ -->
http://www.altbierbude.de/component/option,com_remository/func,fileinfo/id,650/lang,en/#eng

Cuando el actualizador haya descargado e instalado los 35 GB, sÃ³lo tienes que crear una cuenta en el vestÃ­bulo con nosotros.

Espero que esto se haya traducido a un nivel razonable de comprensiÃ³n, de lo contrario por favor pregunte en el foro.

GlÃ¼ck auf!

Danke Michaw!!!:

Spanische Benutzer und das oso rulo halfen mir beim Einrichten des Spiels.
Ich konnte mit Hilfe von an den Rennen teilnehmen Oso Rulo!
Wir sind gestern in Hockenheim gelaufen. F1 1967. Sehr schwierig !!
Ich Ã¼be in Chayka, um am Turnier teilzunehmen " Doble feature". Ich mÃ¶chte kein Hindernis auf der Strecke sein.
Wie kontaktiere ich Manfred, um mich anzumelden?

TschÃ¼ss und danke

Luis (Alle Ã¼bersetzten Nachrichten von Google)

Hallo Luis,

willkommen auf der "grÃ¼nen Bude". :)

FÃ¼r den "Double Feature Championship" brauchst du dich
nicht anzumelden. Einfach nur mitfahren.

VG
Manfred

Danke Manfred!!

Ich werde auf Englisch weitermachen. Alles, was ich auf Deutsch geschrieben habe, war dank Google !!.

If it is not required a registration,, i will practising on Chanka, to race with you April 23th. With the two cars of the
reglament (ABB Classes TC65 and ABB Classes GTC65. It's OK?)

A question. I have to register the car i want to use on chanka, BEFORE THE RACE?. On the two classes?

Thanks in advance

Luis

Luis

No, you can pick any car in the list per class and race it (one time per season), no need to register before race. On raceday you can still change car in practice and qualy if you want. Some people prepare the whole season and make their choice of car for every track early but some hardly practice and see what car they use on race day in the evening. I don't practice a lot but when on track I kind of feel what car would be nice and stick with that one without thinking if I might need it on a better track.

So, all is good but a bit of practice is advised of course.

Welcome to ABB Luis!

Great spanish speaking channel in Teamspeak but you already know that. Nice bunc of people there.

Welcome to ABB Luis!

Great spanish speaking channel in Teamspeak but you already know that. Nice bunch of people there.

I went for a run to Hockenheim today, but they doubled my suspension on the first corner. I imagine it must be a way to welcome me here (hahaha)! Anyway, I had not had very good times in the qualify, so I was going to end up being a hindrance on the track. In the end, I worked as a track engineer for the TS! See you soon

That wasn't me. I halved your suspension and it was in turn 2.:side: Sorry about that.
