autoupdater downloading files but not install

Geschrieben von papallu - 13.08.2019 13:32

---

hi guys,

i am downloading cars from the autoupdater but it does not install automaticly mods like before.
i use windows 10

Aw: autoupdater downloading files but not install

Geschrieben von rdjango - 13.08.2019 14:25

Hi papallu,

may be a problem with the rights. GTL should not be in the program files path of c: and you should start all necessairy programs with admin rights.

rdjango

hi rdjango,
i am finaly trying Something, i downloaded all cars mod and i installed only 1 mod manualy and removed the autouploader to reinstall it and forced it to check my files installed.
i have seen 1 mod being installed ; but now nobody are uploading or i have a problem with my ports!! so i need to wait to know if that will work

i finaly downloaded and installed all cars now;
i did what rdjango told me to do about rights + what i said in my last message.
again few tracks to dll and i will be back ;)
see u soon guys
