Hiho,

was fÄ¼r ein geiler Einstand vom 365er...auch wenn ich es fast verhindert hÄtte bis drei Kurven vor Schluss...aber wie heiÃt es so schÄn, hÄtte, hÄtte, Fahrradkette....lol:

Und ausgerechnet bei diesem klasse Rennen hat Alvaro ein PC-Problem und es gab kein Replay zu gucken.

Aber egal, jedenfalls hat der Ferrari auch auf dieser eher Antistrecke fÄ¼r ihn bewiesen, das er prima in die Klasse passt.

GlÄck auf!

After many laps at Nordschleife (addictive on a leisurely Sunday afternoon) i was rather tired but joined the celebration of the new car anyway. It does great at Hungaro, it will do great at any track!

Not an easy car but very drivable and fun! Catching sideways moves is great!

I started 17th, man o man ABB is quick!

GReat accident at T1 and further up the road and I was 6th after 2 laps I think. I knew that the fast guys would come back and I sold my hide as dear as possible. Steini got by, Shaggy and later frankes, Micha etc etc etc. But in the end , even with a S&G I was 11th (12th if schneider hadn't lost connection) Pretty cool. Good to see Geoff on track again and also newer members like Kristen.

Hail ABB!:)
