Great day of practice and 10th on grid I think.

But fred....went backwards!:lol:

This started a mayhem seldom seen before. I hit fred too and was hit about 5 times. Seems like nobody lifted.

OK< start from the almost back with a damaged car and couldn't get better than 26.6 so no attacking to the front. But I had good fights!

The best was almost 2/3 of the race with friend Harald. Superb with BMW and Porsche. GREAT. I was very lucky that Harald missed the almost last turn of the race and I got 9th! :woohoo:

Werden die Resultate von Zandvoort und gestern in Events 2020 hochgeladen? Kein Problem, nur Spass :)
