Guys are we going to drive the both cars on the both races (The first car on Race 1, and the second car on race 2) or we can drive both races with one of the cars?

Thanks.

Hiho,

you can drive both races with one car.

Glück auf!

Great fun at race number 2.

I had some changes to the setup and the car was flying in the qualifying session, taking the pole. After that we started battle with Oso for the win. We were driving identically for so many laps as little mistakes gave the lead once to Oso and once to me.

At the end Oso was a little bit faster overall and deservedly won.

Race 1 was terrible. I had pace to fight for podium finish. Made one semi-slip after trying to avoid another driver. After that started driving over the limit, which gave me 4 warnings for cutting the track and that means 2 stop/go penalties. It was a miracle that I was able to finish in P12.

Congrats to the winners and the podium drivers.

Overall it was a good day at the office as I was able to make new record in Altbierbude - second place.

Race 1 from my computer + camera and commentary:

Nice racing. Good fights with Droker, Taffy, Blaubär usw. für P11-15. Simca war schneller aber im Abarth habe ich immer Riesenspass! :) Hut ab für Manfred der 56er fahren kann mit dem Ding!
Grats an Sieger!

I've made a video clip for the battle between me and Oso. Hope you'll like it: <https://www.youtube.com/watch?v=zH-UinkuJ5M>
