
Can't download anything

Geschrieben von ChrisGT40 - 25.08.2020 13:26

Hello,

I'm having issues trying to download cars and tracks.
Can somebody assist me please.

When I try downloading, I have a message that says - "You don't have permission to download this page".

Hmm, then I would try another browser. Or use our Autoupdater. And check if an antivirus software blocks the downloads

Glück auf!

Thank you for your assistance - That worked. Safari wasn't working and Brave Browser does.

Thank you :)
