
multiplayer

Posted by rillo - 2020/10/29 13:28

Hi

I've not been online for a while and can no longer get on multiplayer can anyone tell me my username and password,the one I have a note of doesn't work

What did you see when you try to log in to the lobby? General error? If yes, the only thing that helps is that I delete your old lobby account and you register again. Quiet even with the same data.

Glück auf!

Hi

Yes that is what I saw so if you can quit all my info I will re register thanks
