Wie lange sollte man der Fairness halber warten bis man auf dem Disco-Server das Rennen startet?

WÄre da fÄr ne feste Uhrzeit wie 20.30 oder vielleicht 20.45.

Dass da schon nach 5 Runden jemand allein seine Runden dreht ist relativ witzlos.

Vielleicht kann man da fÄr die Zukunft ne feste Regelung finden?

Hi cutters.

{youtube}XfL6nZgrJxI{/youtube}

- 1:16:21 Stream keeps going at FullHD but got disco from servers... disco in the exact moment that Blade passes finish line on lap44.

- In the previous race I kicked Droker but on my camera I was 2 meters far from him.

- In longford 60s series I was streaming without any problem (without any microfreezing) and I had a disco on lap 30 from 31.

- The famous molleris problem.

- etc.

Guys, are you sure the servers are ok?...

Blessed Adelaide.

I managed to go from start to finish without disconnecting, on server 5.

I am very happy with my P8 !! :woohoo:

(despite 3 laps behind and 3 S&G !!!) :S

Sorry Fin,

hatte da nicht drangedacht. (War mein erster Disco in 11 Jahren)

Bin aber extra im Teamspeak geblieben.

Hättest mich ruhig ansprechen können und wir hätten neu gestartet. Und ja alleine fahren suckt.

Gruß

Thomas

Sorry to hear that Alvaro. It sounds like there is something wrong with your instalation. Maybe you must reinstall the game and all of the mods, tracks etc? But if you do that don't forget to back up the important files like player profile, replays xd etc.

as for my race: This event was very exiting as had everything in it from my point of view. I had decent pace but didn't knew what will happen with the tires with the 50 KG additional weight.

For some reason in the qualy my wheel just stopped working without any indicator why. I tried to bring it back to life with some settings changes but nio hope at all. So i had to start the game all over again and start from the back of the grid.

The start was totally amazing for me. I started from P24 and before of the end of lap 1 i was now i P14.

Throughout the race i had great battles and chases with many drivers - Niko, Waschk, Droker, Dirtyha and more.

Unfortunately the cut system ruined my race as i made 5 warning for cut and had to go 3 times in the pit for 10 sec stop/go penalty.

At the end i am very disappointed with my performance - i should have tested more to know that the 50 kg additional weight will kill my tires and try to protect them better. I had to much oversteer.

But the race was so much fun and because of that can't be called "ruined".

Congrats to the victor.
