Great fun this time even though it was a little bitter at the end.

I drove Austin Healey which was a little bit slow on the straights but very stable at the corners.

I started 15th but after mistakes by other drivers around the end of the race i was fighting with Manfred Haupenthal for P8 and then i was unable to avoid Blade who has span after turn 1. I hit him, the car went in the air and after 3-4 attempts to start the engine again i lost so much time and i was now in P12. At the end i finish in P13 after Shaggy overtake me.

Very disappointing end but very good and consistent driving.

Sorry to Manfred for bumping him in lap 1. There was nothing i can do there. :(

Congrats to the victor.
