Hi guys,
Papag21 has been inactive about 1.5-2 years now and even other team members have had great difficulties to reaching him. Greg7 has been able to discuss with him and last I know he was doing work to finalize mods that still exists but have not been released and I promised to deliver him updates to all the mods which I have updated since the release.

So, your best bet is ask from Greg.

And while we are at asking contact infos, could someone please tell MotorFX if he could contact me or if you know how to reach him, drop me PM.

Ist noch irgendwer von team CC hier aktiv? Auf dieser Page wird ihr Opel GT zum Verkauf angeboten:

Konvertieren ohne zu fragen gibt es ja schon solange es Mods gibt, fÃ¼r Geld und durch jemanden der sich "development group" nennt finde ich etwas zu weit gehen. Butchs Autos und (ich glaube) auch Boreks Autos gibt es auch. Meine nicht mehr, nachdem ich gedroht habe die Copyright Verletzung zu melden. Es gibt auch einige SimBin Autos. Wie stehen die eigentlich zum Thema "verkaufen"?
