
Retrieve password ?

Geschrieben von zifox - 15.10.2021 20:30

Is there any way to recover a lost password from the lobby ?
I definitely can't remember the one i've been using several years back, and the account still exists.

Hiho

No, there is no option. I can only delete your lobby account and you create it again

GlÃ¼ck auf!

That would be great. I'm using the same nickname as I do here.
(you can also delete the 'zzifox' account, I just created it to check that I could actually connect to something).

Thanks.
