I'm still struggling a bit with this car...I'm still about 15 seconds off....dry:

Someone would be kind enough to give their setup?;)

Ich habe noch ein bisschen Probleme mit diesem Auto... Ich habe noch etwa 15 Sekunden zu viel....dry:

Jemand wÃ¼re so freundlich, sein Setup zu geben ?;)

I'll upload a comfortable setup too but I cannot do till 20:00.

Its very important the setup on this car or it will brake/turn/acelerate like crazy.

It's really annoying when people can't make the first round without pushing others out...

Good racing yesterday but too many mistakes from my rivals. I had a good qualy, took 2nd and was able to keep it. After that Alvaro made a big mistake at lap 1 and I took the lead. Later on I made my only small mistake and Frankes was now the leader.

Unfortunately from that moment all the drivers around me started making mistakes - Frankes, Manfred, Micha and Bordi.

---

During the final laps Alvaro caught me and I had no chance to stay with him.

I had to keep fuel during the whole distance so I am happy with P2 but when we drive at Clermont-Ferrand only P1 is my goal as this is a track from my top 5.

Grats Alvaro, amazing pace and Manfred for the great pace and podium.
