
1 Year Turbo Racing On YouTube!

Posted by Duleto - 2021/04/14 23:56

Hello guys! 1 year ago (15th of April 2020) i started my YouTube channel called Turbo Racing. So to celebrate that achievement i was working on a video clip with some funny moments from the last few months. It took around half an year to mostly get the best possible video moments with good quality. I hope you will enjoy and laugh with me here. :)

Hi Dimitar,

I'm registered to your YT-channel since you are active also here at ABB, and have to say: Great work! :woohoo:

I really like to watch your videos, and had some fun to see your other activities...;)

Even since you hit me at the last ABB-event (LeMans 79), you are one of the most gentle competitors (beside a lot of other long term members) to fight with here at ABB-events (thumbs up).

Thanks to be with us...;)

Kind regards,
Holger
