Online Key
Geschrieben von LessThanSte - 22.09.2022 17:34

Hi all,

I had GTL many years ago, but have lost the install CD in a recent house move. I stumbled across this site today, and thought I'd race tonight if possible. But I'm stuck at the online serial key screen.

Is there a way to access the lobby without a serial? Or a way to get a key online? I know there was the Computer Bild link several years ago, but that seems to have long gone.

Thanks
Steve

---

you can not do without a key ... buy on steam costs pennies :)

Hello,

do you remember your old lobby name? So the name of the lobby account, not from the homepage? Maybe then I can find your old online key. Otherwise you can buy GTL for little money on Steam and then use the product key (=Onlinekey) from there.

GlÃ¼ck auf!

Hi,

Thanks.

As far as I know I used my name (Steve Pearce) as my username for all Simbin games.

Thanks
Steve

I could not find an old account unfortunately. Probably you still had it in the old Simbim Lobby.

GlÃ¼ck auf!

OK thanks. Looks like i'm off to purchase a key, then.

On a separate note, im running the updater as we speak, with 2000 odd files to download. Is there a way to only download the files i need for the race tonight, rather than all of them? I fear at this rate i'll be downloading all night rather than racing :|

Theoretically, this is possible. You need Watkins 67 as Racetrack, the F1 67 as Mod and our Carclasses. You can find everything manually under downloads

GlÃ¼ck auf!
