
4GB Patch makes the .exe in red

Geschrieben von Duleto - 07.05.2023 15:39

So, when I apply the 4gb patch to my exe, the launcher detects a problem with the .exe and it lists it in red. Any ideas how to fix this?

I have no idea, I have never started my game through Lowguard. 4GB patch works for me too.

Glück auf!
