Porsche 911 Cup on Sunday 08.04.2007

Hello together,

the race is on the Sepang International Circuit / Kuala Lumpur over 28 laps.

times:

Sunday, 08.04.2007

Training at 2:00 pm central european summer time (GMT/UTC + 2h)

Qualifying at 8:30 pm

Race 9:30 pm

Rules

We like to have varied fair races.

Wreckers are not welcome!

As an result of this you need to follow the rules below:

1. Ride fair and wait for the right moment to overtake, you will not win the race at first corner.

2. If it happens that you kick another player from the track that isn't a big issue as long as you say "sorry", wait for him to return to the track, let him overtake and try again to overtake a few corners later.

3. Finish your race.

It's so disappointing to start a race with ten players but finishing with two players only.

Even if you spin of the track, it's not sure that you won't finish in a good position.

You do not need to win all the races.

Your race is over if your car won't run anymore.

Petrol usage is x 2, so we have to make a pitstop.

To join the Event you need a password. You get it by e-mail

With opening of the qualifying session at 8:30pm you must have joined the server. We attempt to have a full grid, so if it's within sight, that you will join little later or if you won't take part at the race at all, please inform us by pm prior. We want to give people in waiting list a chance for taking part in the race!

registration

registration by PM .please tell me which car you want to drive and your E-Mail adress.

The Eventpack (all current 911 + current Trackversion) you find here.

Following are members registered for the Event: (Car#)

- 01 Micha (#000 Porsche 911 RSR - Australian Police)
