
Too much covered distance

Geschrieben von CÃ©sar - 26.10.2012 11:45

Hello,

I noticed a strange thing about the covered distance on my profile, I see :

Targa Florio Historic, 98 laps, 7040 km covered.

But it's impossible, I don't make 98 complete laps on Targa, I think it count the unfinished laps like complete laps.

Maybe because we start the track before the finish line so it count one lap each time ? I don't try it on other tracks.

=====

Aw: Too much covered distance

You're right.

Every startet lap will be count as full lap on every track.

Roger
