Hi, everybody. First, sorry for my poor english.

I´m a guy from Spain who loves Gt Legends and play with others players of the world.

Just a liitle Question:

i want to play in Altbierbude server but some of them have a password. how can i know the password to get in?

and, why sometimes the game tells me that the track had not installed?

Ty and merry Christmas to everybody..

Hello Javi,

First of all, welcome to the bude :-)

if you want to drive on the Altbierbude you have to install the Autoupdater to get all the Tracks, Mod´s & skins.
you should have a "clean" installation only to do this.

merry christmas

Thomas
