## Paypal donations

Geschrieben von koi - 16.02.2012 23:32

---

I've made a couple of donations, one in December and one in February and I still only have peer to peer downloads.

Sorry i missed January, I was out of the country, but look forward to FTP downloads. :)

Maurice.

Hi Maurice,

please be sure to fill out the form. \*klick\*

Cheers

Georg

I'm getting real pee'd off now, I've filled in the form a couple of times and I'm still on peer to peer downloads.

I am happy to contribute to the running costs monthly but would like the FTP download as others get.

Anyone in the know, please pass on my request.

My name is Maurice Cox, my forum login is koi and my online user name is Moz.

Best wishes to all,  
Maurice.

My FTP download has run out and I am back to Peer to Peer downloads.

Donated on 3 November and sent in several donation form since.

Maurice. aka Moz

Hi Maurice,

I've talked to our finance manager (ABB-NIC: Noplayer), but he mentions that he didn't receive any donation form from your side.

Maybe you've used a similar form of a different organisation/community...

Did you really use our donation form at Bierbuden.de ?

Hi Maurice,

good news!

Klaus told me finally your donation arrived. ;-)

...you're open for FTP now. :woohoo:

cheers,

Uwe

Hey :)

It mainly depends on how much time our treasurer has at the moment. It can take one hour, one day or one week.

Regards :)

Kai

IMO there is no real need for ftp as peer2peer is perfectly fine especially if you run the autoupdater regularly.

Only your first download will be heavy-volume. From then on all you need is update regularly and time won't be an issue at all. Where an average ftp might let's say download in two minutes, the same might take ten on p2p. All done when you're back from the drink box. So what really.

As for the donations: we are not using paypal so I had donations wired through a German bank a number of times to account Klaus T. whom I understand is the bookkeeper. Only once was I granted ftp access but whatever that ftp did, it messed up my GTL folders, resp. my download settings (which might also have been a firewall problem our side) and it took me two hours to straighten that out. Which incidentally is the only problem I ever had with the ABB. So I expressly never want ftp again. It cost me more time to fix that ftp problem than p2p would lose me over a year or two.

Also, and this is strictly personal, when all is said and done, I don't really care about the download speed, I donate in support of the superb service by the ABB guys who offer me this unique opportunity to race cars from my youth again.

And I really look forward to testing the Manx TT. That alone is worth a bob or three.

Keep on truckin' boys, see you after the holidays.
