
Server 3 results

Geschrieben von koi - 08.02.2013 19:20

Is there a reason why server 3 results are not showing on the ledger sheet?

I have several results with the GT40 which do not show for the current tracks.

EDIT:

I've looked again and see results for the Volvo, but not the GT40.

Many thanks for any help and info.
Maurice.

Aw: Server 3 results

Hi Maurice,

Server3 is currently running the Volvo only on the info page.
So GT40 won't be rated for ledger sheet currently.

Maybe the dedi.ini wasn't uploaded.. will have a look now...

cheers,
Uwe

Edit: Should be OK now....
