

Teamspeak 3 Client, Update fehlgeschlagen!

Posted by Holger_B - 2013/06/28 23:10

Moin zusammen,

ich quatsche ja schon seit einigen Jahren mit euch per TS! Allerdings fragt mich mein PC seit einigen Wochen, ob ich nicht auf die neueste Version von TS updaten möchte?!

Aktuell: 3.0.9.2, vom 29.10.2012

Update: 3.0.10.1

Immer wenn ich updaten möchte, kommt eine Fehlermeldung:

```
Previous update session for v. 1365064384 found
Starting update process
Download / check product ini
Compiling download and replace list
No downloads needed
Starting file updates
add/replace QtCore4.dll._z_
add/replace QtGui4.dll._z_
add/replace QtNetwork4.dll._z_
add/replace QSql4.dll._z_
add/replace accessible/qtaccessiblewidgets4.dll._z_
add/replace changelog.txt._z_
add/replace error_report.exe._z_
add/replace imageformats/qgif4.dll._z_
Could not delete 'C:/Program Files/TeamSpeak 3 Client/imageformats/_old_qgif4.dll'
rolling back file updates
Aktualisierung abgebrochen

Kann mir jemand sagen (schreiben), wo das Problem liegt?

Gruß,
Holger

Aw: Teamspeak 3 Client, Update fehlgeschlagen!

Posted by MichaW - 2013/06/28 23:27

Moin, das hatte ich auch schon mal, das hier hat bei mir geholfen...

Please close the teamspeak client and run the update binary from C:/Program Files/TeamSpeak 3 Client/
This should work

If this does not work, check, that no client is running in your task manager.

Glück auf!
