Porsche 911 Cup on Sunday 22.07.2007

Hello together,

the race is on the NÃ¼rburgring in Germany over 33 laps.

times :

Sunday, 22.07.2007

Training at 5:00 pm central european summer time (GMT/UTC + 2h)

Qualifying at 8:00 pm

Race 9:00 pm

Rules

We like to have varied fair races.

Wreckers are not welcome!

As an result of this you need to follow the rules below:

1. Ride fair and wait for the right moment to overtake, you will not win the race at first corner.

2. If it happens that you kick another player from the track that isn't a big issue as long as you say "sorry", wait for him to return to the track, let him overtake and try again to overtake a few corners later.

3. Finish your race.

It's so disappointing to start a race with ten players but finishing with two players only.

Even if you spin of the track, it's not sure that you won't finish in a good position.

You do not need to win all the races.

Your race is over if your car won't run anymore.

Petrol usage is x 2, so we have to make a pitstop.

No registration needed !!!!

If the grid is full - bad luck

To join the Event you need a password. You get it here.
