
Any action adventure players here?

Hi,

just thought to mention that Ubisoft is giving Watch Dogs (Std) for free till November 13th ([Click here](#)).

You must either have Ubisoft account already or create a new one for free.

I also recommend extending the Std Edition with Season Pass for 6â,- only to get all DLC's, increase play time for hours and play as legendary hacker T-Bone Grady.

Enjoy this opportunity, happy gaming everyone! :)

I love the concept of this game. But I really don't like the controls. I'm just hoping that they should include a roll action next time. 'cause come on, the MC is parkouring they should've include rolling in the controls.
