Hio,

I want to say sorry all racers has been accident for my no FFB at start of the race in server 2.

When I feel that i was no contron on my wheel I went to press ALT+F to my keyboard, It was on the floor, I try to do it faster i can to not did any crash but I makes Grindus crash. I not wait because I didn't see the crash I was looking my keyboard. Really sorry, maybe it was not the best option, but I was scared to no control my car in the first corner and made a crash because I not feel anything about my wheel.

Really really sorry guys.
