Hi Maze,

I am not to sure what you mean as the Google translator I use often gives a very muddled translation. So I try and help if I can.

The Bude site has an German and British flag at the very top of the page and whatever is written in German can be transformed to English language by clicking on the British flag and of course clicking on the German flag will convert it back to your German Language.

Unfortunately this does not apply to anything that is written on the forum threads and posts as they will remain in the language they were written in. To translate those you I use a Google translator ...but as not great translations.

I hope this helps you.

Cheers form rain lashed N.E. England.

Thx Gee.
The flags at the top of the forum i realize the first time now :blush: was the reason of my problem :whistle:
Hehe...thanks for helping
I think i have to change my Nickname into "blindman" :lol:

no problem maze,
it often happens that i oversee special features, for example the feature to switch the forum view between direct view and compact view. so no worries, you are not alone.

regards
