Hi Paul,

for the "everyday 5 or 10 round races" you just have to join the servers in the GTL-lobby.

Dates for special events are listet on the main page of the Bude, passwords will be written beneath the event-poster a few minutes before the servers are open.

Basic rules are quite simple:
-race fair - if you push a car out, wait, let him pass and try again...
-try to behave as if you are racing a real car...

cheers
Georg

edit:
it's a good idea to set your quickchat-buttons to common expressions (thx/sorry/etc)
