Autodromo di Mores

=====

Autodromo di Mores was build from scratch for rF by MrOblongo.
He kindly gave me permission to convert it to GTL.
Thank you so much for this offer.

Pls. find original rF readme in the archive.

- My biggest respect for his fantastic work -

Mesh structure was not perfect for our old GTL engine.
So I've rebuild all mesh and add some
hopefully nice multi-mapping to the terrain.

Pls. give a little respect to all these working hours all of us spend for free for your entertainment!
This project is a â€œtake it as it is, or leave itâ€•-release, pls. see EULA for more detailed information.
